

**Invitation:** The Journal of Medicine Use in Developing Countries (JMUDC) invites authors to publish their scientific materials within the scope of the journal.

**About the journal:** The JMUDC is a peer reviewed international journal. It is the official publication of the Discipline of Social and Administrative Pharmacy (DSAP) at the School of Pharmaceutical Sciences, Universiti Sains Malaysia, Malaysia. The DSAP (<http://www.usm.my/dsap>) is committed to promoting research in medicine use problems in developing countries. Introducing a journal focusing on medicine use issues in developing countries is one of the new initiatives by the discipline to promote rational use of medicines and sustainable health in developing countries. The journal aims to provide a strong platform for the researchers from the developing countries to publish their research findings. Four issues will be published per year. The website of the journal is [www.usm.my/dsap/journal](http://www.usm.my/dsap/journal)

**Scope of the journal:** The JMUDC particularly welcomes contributions from professionals concerned with medicine use in developing countries. The core areas of interest of the journal are:

1. Research in generic medicines
2. Drug utilization studies
3. Pharmacovigilance
4. Pharmacoeconomics
5. Issues related to counterfeit medicines
6. Cross border supply of illegal medicines
7. Drug promotion
8. Public health pharmacy
9. Pharmaceutical policy and management
10. Drug use problems in the community

The journal also welcomes any other relevant contributions related to medicine use in developing countries.
