

BIO - KAITLIN TAGG

Kaitlin Tagg is a data scientist in the National Antimicrobial Resistance Monitoring System at the Centers for Disease Control and Prevention in Atlanta, GA, USA. Her expertise is in epidemiology and ecology of antibiotic resistance in enteric foodborne pathogens, with a special interest in plasmids and mobile genetic elements. She completed her PhD at the University of Sydney, Australia in 2016. Her current research explores the public health application of pangenomic data to mitigate the burden of pathogenic *Salmonella* serotypes. She has co-authored 40 peer-reviewed publications and book chapters, including nine first-author papers, [with over 1600 citations.](#)
