

**Professor Rungtip Chuanchuen** is a veterinarian professor at Faculty of Veterinary Science, Chulalongkorn University. She is the Head of the Research Unit in Microbial Food Safety and Antimicrobial Resistance (CUFSAR); the Director, Center for Antimicrobial Resistance in Foodborne Pathogens (in cooperation with WHO) (CUARM); Director, Global Foodborne Infections Network: South-East Asia and Western Pacific Region, and the Director, FAO Reference Center for Antimicrobial Resistance. Her research has focused on studying molecular epidemiology and mechanisms of AMR in bacteria of veterinary public health importance using One Health approach. She supports countries in Asia and Pacific regions to strengthen their capacities and capabilities to manage AMR risks, national AMR surveillance, data collection and analyses, antimicrobial susceptibility testing and quality assurance in veterinary laboratories.
