

LIVESTOCK & FISHERIES PROGRAMME

Building Private Public Partnership for Pro-poor Livestock Development: Experience from ASARECA

Jean Ndikumana
Programme Manager
May 2013

Vision and Mission of LFP

- ❖ **Vision:** To be a regional Leader in LF R4D for improved Livelihoods.
- ❖ **Mission:** Enhance Regional Collective Action in LFR4D, Extension, Training and Education to promote economic growth, fight poverty, eradicate hunger and enhance sustainable use of Natural Resources in ECA

PROCESS FOR PROJECT DEVELOPMENT

- ✦ **Priority setting involving major stakeholders in the research and development sectors.**
 - NARES
 - Actors along value chains (farmers and farmer associations, input & service providers, processors).
 - Regional and International Research Organizations (SROs, FARA, CGIAR)
 - Advanced Research Institutions
 - AU/IBAR, NEPAD and RECs

PROCESS FOR PROJECT DEVELOPMENT

- ✿ Research calls to develop projects addressing identified priorities.
- ✿ Winning proposals to include a minimum of 3 countries and 4 institutions. Private sector encouraged to join submitting teams.
- ✿ Currently 2 projects involving private sector companies among implementing institutions

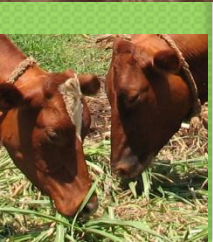

APPROACH IN PROJECT IMPLEMENTATION

- Value Chains Analysis :Actors along the value chains
- Innovation system approach: platforms for action research, learning and knowledge sharing.
 - Linking actors along the value chain
 - Building PPP

Recent and Current Partnerships

- Linking smallholder milk producers with AI service providers in Tanzania and Rwanda. 318 households embraced AI in breeding their cattle. More than 400 improved calves born in less than 2 years
- Facilitating linkages between smallholder dairy farmers to Milk collection centres (Cooperatives) and to Dairy Plants in Tanzania, Rwanda; Kenya; Burundi and Uganda. Project involved policy makers.

Past and Current PP Partnerships

- ❖ Linking livestock farmers with private veterinary services providers. A similar approach for the TTBDs in Madagascar and Burundi
- ❖ Working with forage chopper and hay bailer manufacturers in Kenya, Uganda and Tanzania (SIDO).

Past and Current PP Partnerships

- ❖ Linking smallholder dairy producers and butchers with supermarkets in Nairobi, Eldoret, Arusha and Dar-Es-Salaam. Producers made aware of consumers demand in terms of standards and safety.
- ❖ Organising milk and meat producers and small scale processors into associations and training them to build their capacity for compliance with market preferences.
- ❖ Training was on Good Manufacturing and Good Hygiene Practices; Hazard Analysis Critical Point and Meat and Milk Hygiene, Safety and Standards. Uganda, Kenya and Tanzania

Challenges for Successful PPP

- ❖ Limited expertise in NARS on value Addition, area of major involvement of the Private sector
- ❖ Private sector is profit oriented whereas ASARECA major focus is on producing public goods. Limited targeting of the private sector.
- ❖ Small grants for projects are not appropriate for Private sector engagement.
- ❖ Limited knowledge by scientists about how the private sector works.

**THANK YOU FOR YOUR
